Hi Joe,

Here is what our staff was able to pull. I hope this helps! Thanks!

- The number of **inmates released directly from solitary** in 2014.
 - PNM North had a total 61 releases, PNM South Segregation had a total of 22 releases.
- The **percentage** that has gone from ad seg to **release with supervision**.
- 65 of the inmates released were released with supervision in 2014.
- The **number** from ad seg to release **without supervision**.
- 18 of the inmates released did not have supervision to follow in 2014.
- The number of those from **regular release with supervision in 2014. 2362**
- The number of those from **regular release without supervision in 2014. 898**
- The percentage of those from **regular release without supervision in 2014. 3.6%**

Disclaimer:

Due diligence has been applied to assure the accuracy of report data and the NMCD has confidence in the counts tallied herein. Still, due to inconsistencies and mistakes over decades of data entry, as well as ensuing attempts of varying success to fix previous inaccuracies over that time, it is virtually impossible to conclude that all of these data are entirely correct. Further, conclusions based on these data should be limited to the NMCD or the direct recipients of the data request. Conclusions drawn other than those intended by the original study may be anomalous and are not supported by the NMCD. Additionally, information that is not considered public, such as date of birth, or social security number, shall not be distributed or disclosed to anyone outside of the direct recipients of the data request without the prior express consent of the NMCD.
